## Terms

---

### **Health Insurance:**

The coverage I get through my work, the state, or that I purchase to help pay for my medical bills.

### **Out-of-Pocket:**

The out-of-pocket maximum is the most I pay each calendar year for covered health services.

### **Deductible:**

The amount of expenses I must pay out-of-pocket before an insurer will pay any expenses.

### **Co-Payment:**

A flat amount of money I pay my health care provider at the time of visit.

### **Coinsurance:**

The percent of money I pay after my deductible is met. Example: Insurance pays 80% and I pay 20% of my bill.

### **Claims:**

This is the bill sent to the insurance company from your provider, hospital, dentist, etc.

### **Premium:**

The amount of money I pay every month for my health insurance plan.

---

Helps with questions you have after receiving a medical bill.

**920.445.7210**

## Payment Plan

---

Up to 24 months to pay your medical bills with monthly automatic withdrawal. Log on to [MyBellin.org](http://MyBellin.org) to get set up.

**920.445.7210**

## TIPS AND TRICKS TO BE FINANCIALLY HEALTHY

1. Start a savings account now for medical bills. Determine a set amount that you will put aside from each paycheck.
2. Ask your employer if a health savings account (HSA) or flex spend is available at your job. With this plan, money will be automatically deducted from each paycheck pretax and can be used for medical bills throughout the year.
3. Meet or talk with a Patient Financial Counselor before planned medical visits to receive estimates. **920.431.5667.**
